

SKRADJHUWN

Is it a bit frightening & horrible,
or just an awfully fun face?

WELCOME to the SKRADJHUWN SPECIMEN BOOK

I have always felt the SKRADJHUWN font was a face that defied proper description. If it was my intent to create such a font, then I've been successful. This face has a hint of comical flare with a stance that is all headline and display, a truly fun font for sign guys like myself—and for anyone else trying to make a bold statement in their layouts. So enjoy this spec book. It's a simple journey through a fun face. But this isn't just any simple font. It's got a few options in it. If your design software happens to recognize OpenType Features, you'll delight in the replacement options that are offered. They can be found throughout these pages as letters in **RED** fill. You can even opt to access these replacements with your software's character map. You might even discover SKRADJHUWN offers ligature replacements—shown in **BLUE** fill.
